

Nursery - Can you go on a colour hunt? Call out a colour and see how quickly your children can find an object of that colour in your home? How many things of that colour can they find within a minute? You could make a rainbow using the objects that you find.

Reception - Can you make a paper aeroplane with your child, one for you and one for your child? You can use YouTube to help you. You can decorate them too, remember to use lots of different colours! Which one goes the furthest? How can you help your aeroplane to go even further?

Year 1 and 2 White Rose Maths is the scheme that we follow in school. If you type in your child's year and home learning you will find daily worksheets and their answers. Go onto google and in the search bar type: White Rose Maths Year 1 home learning or White Rose Maths Year 2 home learning. They also have family challenge Friday which you can do together.

For physically active maths lessons you can go to the website homeschool.mightmaths.co.uk There are short videos of around 15 minutes each containing arithmetic sessions. The lessons are in line with the national curriculum.

TUESDAY

Nursery - Cut out images from magazines and make a collage picture. Encourage your children to cut out independently where possible. They should make little snips while using their other hand to manipulate the paper.

Reception - Encourage your child to make the different sounds that we have learnt already from the alphabet. Call out a sound can your child make that sound/letter using objects from outside

such as stones or sticks?

Years 1 and 2 - Imagine that an alien visited Earth for the day. What kind of things would you do with him/her?

Think about:

- How would you speak to him/her?
- What sort of things would you both do together?
- What places you would want to show him/her?

Check:

- Capital letters and full-stops.

- Your spelling in a dictionary.
- That you have used some interesting adjectives.

Wednesday

All years - Can your child help with some cooking? You could take photos of each step you take. Once you have the photos you could write some instructions together for each of the steps. You could make your own little recipe book that could be a little keepsake.

Thursday

All- Could you make a poster that demonstrates how Eid is celebrated. E.g. how Muslims share food, wear new clothes that they have bought.

Happy Friday

All - Can you use different recyclable materials to make a mini beast such as a butterfly or a caterpillar?

Please don't forget to use purplemash it has many different resources covering different topics, they are also setting weekly tasks for 5-7 year olds.

Things that are happening daily.

9 am PE with Joe Wicks (Mrs Asquith-Dolan can confirm this is great for all the family)

Find him on Youtube he is known as the body coach.

10 am Maths with Carol Vorderman - www.themathsfactor.com

11 am English with David Walliams story telling - <https://www.worldofdavidwalliams.com/elevenses/>

12 pm Cooking with Jamie Oliver - <https://www.jamieoliver.com/features/category/get-kids-cooking/>

1 pm Music with Myleene Klass - Also found on Youtube

FREE STORIES perfect to finish off the day at bedtime - <https://sooperbooks.com/bedtime-stories/>
