

Nursery - Practice counting from 0-10 and back. You could count the stairs in your home? You could make a chart to see how many jumps, hops they can do in ten seconds and back while you count. Encourage your children to join in the counting.

Reception - Can your child count to 20 and begin to recognise numbers up to 20? You can watch Numberblocks (the episodes are on YouTube) with your child, "Series 5, Episode 2- On you head" and "Series 5, Episode 14- I can count to 20". After, can you hide objects around your house (in groups), can your child find them and count carefully? Remind them to put them in a line before counting. To extend, can they write the numbers?

Year 1 and 2 White Rose Maths is the scheme that we follow in school. If you type in your child's year and home learning you will find daily worksheets and their answers. Go onto google and in the search bar type: White Rose Maths Year 1 home learning or White Rose Maths Year 2 home learning. They also have family challenge Friday which you can do together.

For physically active maths lessons you can go to the website homeschool.mightmaths.co.uk There are short videos of around 15 minutes each containing arithmetic sessions. The lessons are in line with the national curriculum.

TUESDAY

Nursery - Can your child practice spelling their name, they could do this with chalks outside, or they could paint their name. Or if you have sand they can trace their name in the sand. It is ok for your child to copy write.

Reception - Have a variety of objects in a big circle. Spin the bottle in the middle of the circle- whichever one the bottle lands on, encourage your child to write the word of the object. You can have simple objects e.g. dog, pen, pan. Or you could have some trickier words- can they use their phonic knowledge to try and spell the words?

Years 1 and 2 - You find an old suitcase in your dusty attic. Describe the things that you find inside.

Think about:

- How old are the objects?
- What do the objects look like?
- Who do you think the suitcase may have belonged to?

Check:

- Capital letters and full-stops.
- Your spelling in a dictionary.
- That you have used some interesting adjectives.

Nursery - Watch Dear Zoo- Words book day on youtube. It is a lift the flap book. Maybe you could have a go at making your own lift the flap book? What animals would you include? How would you describe them?

Reception - Have several words in a bag that the children can decode, have some that are real (chip, shop, tap, mud) and some that are made up (shup, pag, hib, cheg). Encourage them to close their eyes and choose a word- can they read it out loud by decoding and blending, e.g. p-a-n, pan. Can they say if the word is real or pretend? Put the timer on, how many can they read in 1 minute?

Year 1 and 2 - Think about your favourite book. Design a front and back cover. Don't forget a bold title an eye-catching illustration and a blurb for the back. Remember the blurb tells you what the book is about without giving away too much information. Year 2 children don't forget the author usually includes a question to entice the reader. e.g. Do you want to know how this story ends?

All- It is a special time for Muslims around the world celebrating the Holy month of Ramadhan.

*Can you draw or create a model of a mosque using recyclable materials.

Topic: Can you talk to an adult and answer these questions.

- * What is Ramadhan?
- * Why do Muslims fast?
- * How do Muslims fast?
- * What happened in this holy month?

All- Did you know that May is National Walking Month? Why don't you have a nice walk along the canal find a nice quiet spot and draw a sketch of what you can see around you? Can you spot any ducks or flowers?

Please don't forget to use purplemash it has many different resources covering different topics, they are also setting weekly tasks for 5-7 year olds. This week there is a focus on 'Little Red Riding Hood linked to maths activities and coding games.

Things that are happening daily.

9 am PE with Joe Wicks (Mrs Asquith-Dolan can confirm this is great for all the family)

Find him on Youtube he is known as the body coach.

10 am Maths with Carol Vorderman - www.themathsfactor.com

11 am English with David Walliams story telling - <https://www.worldofdavidwalliams.com/elevenses/>

12 pm Cooking with Jamie Oliver - <https://www.jamieoliver.com/features/category/get-kids-cooking/>

1 pm Music with Myleene Klass - Also found on Youtube

FREE STORIES perfect to finish off the day at bedtime - <https://sooperbooks.com/bedtime-stories/>
